Compatible storage Inverters with RESU HV

All RESU installations require a compatible inverter. Using a non-approved inverter will void the warranty provided by LG Chem. See below important instructions when installing and using RESU HV.

- 1) Battery/Hybrid inverters should operate in **On-Grid only. (Not in Off-Grid)**
- 2) For On-Grid applications where Back-up mode may be sometimes utilized, the backed up circuits and inverters AC draw must not exceed the battery current limit specifications.

Following list of Inverters are currently compatible with LG Chem home battery, RESU HV Series.

※ More compatible inverters will be added.
