

## Smart charging for business

## We're Wallbox.

We innovate to make things simpler.

### ✓ Easy

Exceptional chargers that are easy to use.

### ✓ Fast

Faster charging than with a conventional plug.

### ✓ Smart

Maximize your ROI by optimizing your charging.

### ✓ Scalable

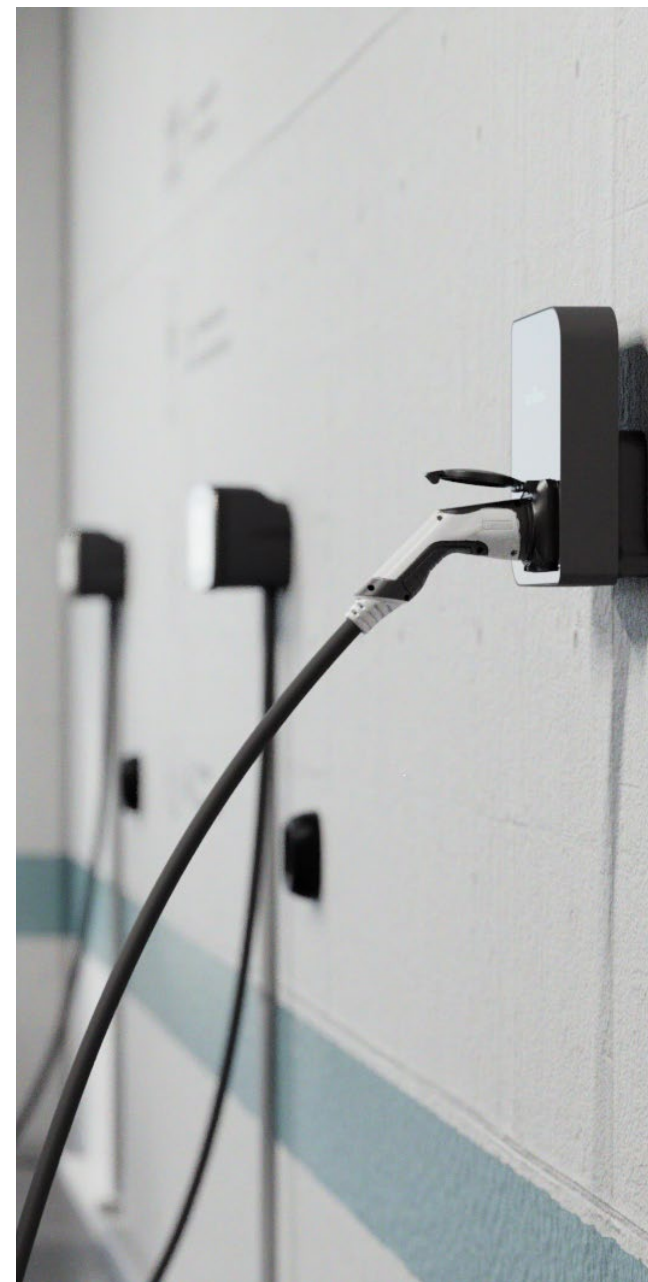

Future-proof charging solutions that grow with you.

### ✓ Connected

Monitor the status of various chargers and monitor their status in real-time.

### ✓ Experienced

Our experts design solutions for the needs of every business.

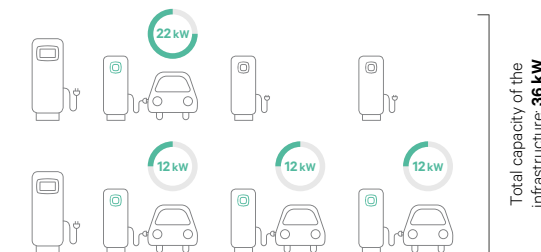

## Boost your Business, **Charge Smart**

### Power Sharing

Power Sharing allows you to distribute a set amount of power most efficiently among all connected chargers.

- ✓ **SCALE AS YOU GROW:** Connect up to 24 chargers to your main charger
- ✓ **MAXIMUM FLEXIBILITY:** Works for any kind of installation, covering communication up to 250 meters
- ✓ **OPTIMIZE USAGE:** Reassigns unused power automatically, for example when one car is fully charged

### Dynamic Power Sharing

Dynamic Power Sharing measures the power available for the charging network at every moment and dynamically distributes it across all connected chargers.

- ✓ **MAXIMIZE YOUR ROI:** DPS will reduce installation and operation costs by evening out energy peak loads.
- ✓ **MINIMIZE COSTS:** The capacity and installation costs savings will lead to money savings for you and your customers.
- ✓ **CHARGE FASTER:** Reduce charging time as available power is used most efficiently.

# COPPER SB

Stunning design, maximum flexibility

### Easy access

Let multiple users access through RFID card or the MyWallbox App.

### Charge safely

Integrated DC leakage to protect your charging installations.

### Maximum flexibility

Integrated socket compatible with plug type 1 and 2.

#### GENERAL SPECIFICATIONS

Charger:	AC
Connector:	Type 2 Socket (shutter optional)
Charging mode:	Mode 3
Dimensions:	260x192x113 mm
Weight:	2 kg
Cable length:	Not apply

#### ELECTRICAL SPECIFICATIONS

Maximum Power:	7.4 kW (1 Phase) / 22 kW (3 Phase)
Maximum current:	7.4 kW 32 A (1P) / 11 kW 16 A (3P) / 22 kW 32 A (3P)
Adjustable current:	from 6 A to 32 A
DC leakage protection:	Yes

#### USER INTERFACE

Charger status:	RGB LED / myWallbox App / myWallbox Portal
User interface:	myWallbox App / myWallbox Portal
User identification:	myWallbox App / RFID

#### CONNECTIVITY

Connection:	Bluetooth / Wi-Fi / Ethernet / 4G (Optional)

# COMMANDER 2

Manage multiple users

### Easy-to-use

Commander's 7-inch touchscreen provides a personalized and secure user interface for every user.

### Controlled charging

Create and control multiple user profiles, and schedule charges for times when tariffs are lower.

### Connected

Insights on every charging session via Bluetooth and WiFi connection to MyWallbox app and portal.

#### GENERAL SPECIFICATIONS

Charger:	AC
Connector:	Type 1 or type 2 (7.4 kW) / type 2 (11 kW and 22 kW)
Charging mode:	Mode 3
Dimensions:	221x152x115 mm (without cable)
Weight:	2.4 kg (without cable)
Cable length:	5m (7m optional)

#### ELECTRICAL SPECIFICATIONS

Maximum Power:	7.4 kW (1 Phase) / 22 kW (3 Phase)
Maximum current:	7.4 kW 32 A (1P) / 11 kW 16 A (3P) / 22 kW 32 A (3P)
Adjustable current:	from 6 A to 32 A
DC leakage protection:	Yes

#### USER INTERFACE

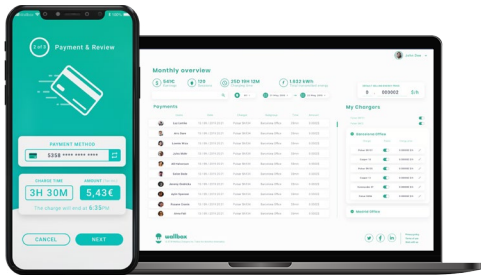

Charger status:	RGB LED / Screen information / myWallbox App and Portal
User interface:	7" Touchscreen / myWallbox App / myWallbox Portal
User identification:	PIN code / RFID / myWallbox App

#### CONNECTIVITY

Connection:	Bluetooth / Wi-Fi / Ethernet / 4G (Optional)
-------------	--
